

Declaration of non use of

Polycyclic aromatic hydrocarbons

In the manufacture of **all** products supplied by Siegwirk, polycyclic aromatic hydrocarbons (PAH's), or raw materials containing PAH's, are not used as intentionally added ingredients:

All PAH's, in particular:

- Acenaphthalene
- Acenaphthene
- Fluorene
- Phenanthrene
- Anthracene
- Fluoranthene
- Pyrene
- Chrysene
- Benzo(a)anthracene
- Benzo(b)fluoranthene
- Benzo(j)fluoranthene
- Benzo(k)fluoranthene
- Benzo(a)pyrene
- Benzo(e)pyrene
- Dibenzo(a,h)anthracene
- Indeno(c,d)pyrene
- Benzo(ghi)perylene
- Coronane
- Ovalene

The presence, however, of traces of these substances in the product coming from raw material impurities, from the process or as adventitious contaminant cannot be excluded. However, we proactively monitor and/or retrieve supplier data on impurities of polycyclic aromatic hydrocarbons for all raw materials likely to contain such traces, in particular carbon black and mineral oils. We can assure you that potential traces in our products, if any, are, several orders of magnitude below 0,1%.

The information in this document reflects Siegwirk's policy and commitments. This statement is valid without signature.
