

## Declaration of non use of

# Toluene and other volatile aromatic hydrocarbons in products offered for NPH (“Nutrition, Pharma and Hygiene”) applications

In principle in the manufacture of **all** products supplied by Siegwerk and recommended for NPH (“Nutrition, Pharma and Hygiene”) applications, toluene and other volatile aromatic hydrocarbons or raw materials containing these substances, are not used as intentionally added ingredients.

In particular, the following substances are excluded:

- Toluene
- Xylene (all isomers)
- Ethylbenzene
- Cumene
- Trimethylbenzene
- C<sub>9</sub> aromatics in general
- C<sub>10</sub>-C<sub>13</sub> aromatics in general

However, the presence of traces of these substances in the product coming from raw material impurities or as adventitious contaminants cannot be excluded. We proactively monitor and/or retrieve supplier data on impurities in raw materials likely to contain traces of these substances. We can assure you that potential traces of these substances will not exceed legal limits.

The information in this document reflects Siegwerk’s policy and commitments. This statement is valid without signature.
